English Language Learners and the Common Core

To successfully acquire both proficiency in English and content area knowledge, many English language learners (ELLs) require additional time, instructional support, and aligned assessments. In this course, you'll explore instructional and assessment strategies teachers can apply to their classrooms to support ELLs’ reading, writing, speaking, and listening skills as they work to acquire knowledge and skills aligned with the Common Core State Standards. Through video examples, in-depth readings, and downloadable applications, you'll learn practical ways to help your ELLs attain rigorous grade-level expectations for literacy and mathematics, preparing them for college and careers.

Course Objectives

After completing this course, you should be able to

Module 1

• Understand that English language learners in the United States are a very diverse group of students.

• Examine the literacy shifts of the new Common Core and the implications for ELLs in the mainstream classroom.

Module 2

• Understand what research says about effective instruction and learning in a second or additional language.
• Understand how language skills in a native language can translate to English comprehension.

Module 3

• Scaffold instruction so ELLs at any language development level can meet or exceed the content standards while practicing and using the language and literacies of the content domain.

• Understand how language competencies are gained through the various stages of language development.

Module 4

• Differentiate between assessment for learning and assessment of learning.

• Describe various means for assessing students formatively.

• Use assessment as a tool to both inform and further instruction and allow students to show what they know in differentiated ways.

Module 5

• Understand how CREDE’s Five Standards of Effective Pedagogy can guide classroom strategies to reinforce listening and speaking.

• Understand how instructional conversation offers ELLs more classroom opportunities to speak and ultimately improve their reading and writing skills.

Module 6

• Understand the interactions of the “culturally responsive teacher.”

• Assess equity in instructional practices in their classrooms.
