FIT Teaching in Action: Learning to Use the Framework for Intentional and Targeted Teaching

The FIT Teaching in Action PD Online course shows teachers and administrators how to use the five components of the Framework for Intentional and Targeted (FIT) Teaching developed by Doug Fisher and Nancy Frey:

1. Planning with Purpose
2. Cultivating a Learning Climate
3. Instructing with Intention
4. Assessing with a System
5. Impacting Student Learning

Those taking this course will understand, through readings, job-embedded applications, and classroom video, why and how purposeful planning and cultivating a positive learning climate lays the groundwork for the instructional moves teachers can use to give clarity, guidance, and structures that increase learning opportunities and engagement for their students.

Course Objectives

By the end of this course, you will be able to

Module 1

- Understand the philosophy and evolution behind FIT Teaching.
- Use your local evaluation model to analyze current practices in the areas of planning, culture, instruction, and assessment and compare those to the FIT Teaching model.

Module 2

- Understand that Planning with Purpose requires unpacking standards and establishing transfer goals to develop daily lesson content and language purposes.
- Construct and revise a lesson content and language purpose using the FIT Teaching approach.
Module 3

- Understand the teacher’s role in cultivating a culture of learning and achievement at the classroom and school levels.
- Determine areas for potential growth in the three factors of Cultivating a Learning Climate to develop specific classroom environment goals.

Module 4

- Explain how Instructing with Intention uses the Gradual Release of Responsibility framework to help students learn effectively.
- Create, teach, and observe lessons that include focused instruction, guided instruction, and collaborative learning opportunities for students.

Module 5

- Understand how the three ingredients of Assessing with a System work together to provide continuous formative assessment to inform teaching and learning.
- Analyze and select “checks for understanding” to use during a lesson and evaluate the results of needs-based feedback.

Module 6

- Understand the need for ongoing assessment of teachers’ impact on student learning.
- Analyze and evaluate how to collect evidence of both short- and long-term learning.

- **Video 5:** Collaborative Learning
- **Video 6:** Gradual Release of Responsibility in Action
- **Check for Understanding**
- **Application:** Using the Gradual Release of Responsibility Process
- **Module Journal**
### Module 5
**Assessing with a System**
- Module Welcome
- Video 1: Assessing with a System
- Reading 1: Assessing with a System
- Reading 2: Assessment to Support Learners (4.1)
- Video 2: Assessment to Support Learners
- Reading 3: Assessment to Monitor Learning (4.2)
- Video 3: Assessment to Monitor Learning—History
- Reading 4: Various Modes of Checking for Understanding
- Video 4: Assessment to Monitor Learning—English & Math
- Reading 5: Assessment to Inform Learning (4.3)
- Video 5: Assessment to Inform Learning and Teaching
- Check for Understanding
- Application: Using Checks for Understanding
- Module Journal

### Module 6
**Impacting Student Learning**
- Module Welcome
- Reading 1: Short-Term Evidence of Learning (5.1)
- Reading 2: Long-Term Evidence of Learning (5.2)
- Video 1: Determining Evidence of Learning
- Reading 3: Transfer Goals for Deeper Learning
- Video 2: Transfer Goals for Deeper Learning
- Check for Understanding
- Application: Considering Transfer Goals
- Module Journal
